

*Beauty, Strength and Design:
a great combination!*

BRISBANE

What will you be doing this summer?
Superior materials and renowned durability,
The **V7 Steel Series** brings you the ultimate in
steel pools. Take pride in owning a quality steel
pool that is built for the long haul!

The entire steel structure is coated with a
combination of protective finishes, ensuring
maximum resistance to corrosion and
providing optimum durability.

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations. © copyright 2014
